

DISCUSSION

Claim 1 is currently pending in this application.

Claim 1 is novel over the art of record due to, in part, because it has soynut butter, it has a weight ratio of soynut butter to sugar that is different from the weight ratios disclosed in the art, and the pesticides are different. Furthermore, the claim is unobvious over the art of record due to, in part, the problem it solved. In Example 3, the claimed invention was compared to the current world market leader for cockroach control. The claimed inventive composition was unexpectantly and statistically better than MAXFORCE. The cockroaches could not get enough of it and the MAXFORCE bait was not touched.

CONCLUDING REMARKS

In making this election, the Respondents reserves their rights to file a divisional application to the non-elected subject matter of Groups II and III.

Respectfully submitted,

/Carl D. Corvin/
